

MAXATP™

RIBOCEINE FUEL

Purpose

MaxATP™ is a Performance Supplement of nutrient-driven energy powered by RiboCeine. MaxATP's proprietary ingredients support proper muscle function, the metabolism of carbohydrates, and also provides antioxidants.

These benefits support the generation and consumption of cellular fuel, giving cells the components to more effectively clean up free radical damage to better assist them in working at their peak level of performance.

General Description

ATP (adenosine triphosphate) is the basic form of cellular energy for your body and is critically important to the life and health of every cell. As long as ATP is present in sufficient quantity, energy levels are maintained, allowing cells and tissues to function at levels. However, as we age, ATP production can become less efficient. The ATP process requires certain elements in order to be manufactured. Numerous vitamins and minerals support both ATP production as well as the process to release the energy stored in food as it goes through the metabolic process.

MaxATP is formulated to include elements to support normal cellular maintenance. It includes ribose (a precursor to ATP production), and other vitamins and nutrients known to help assist cellular health and maintenance. The vitamins aim to promote a healthy metabolism, including support for ATP, the cells energy source.

Product Benefits

- Provides the nutrients that supports ATP production including ribose, one of the primary components needed for the production of ATP.*
- Helps metabolize carbohydrates and convert food into energy to better replenish energy and support endurance.*
- Assists in the production of glutathione, the master antioxidant that helps to neutralize free radicals.*

Ingredients

L-Tartrate-Carnitine - supports fat metabolism in the liver, therefore increasing the amount of energy available. Carnitine shuttles long chain fatty acids from the liver into the mitochondria to be metabolized.

RiboCeine™ - a patented breakthrough nutrient compound clinically proven to deliver the key precursor nutrient, cysteine, to the cell. RiboCeine™ enables the cell to produce optimal levels of Glutathione. Backed by 25 years of research and 45 published and peer-reviewed scientific studies funded by the National Institutes of Health and other scientific institutions, RiboCeine™ was shown to outperform all other means of Glutathione enhancement against which it was tested.

Ginseng Root Panax - Panax Ginseng is ginseng from Asia, is known to act as an adaptogen, and helps to maintain cell health and energy.

Green Tea Extract - is known to have high antioxidant activity and, together with RiboCeine, promotes a step in the production of glutathione. It also provides the natural source of caffeine which acts as a natural metabolic enhancer and supports mental alertness.

Rhodiola Rosea - an adaptogen aimed to support brain health, and to assist cell health when fatigue occurs.

Quercetin- a flavonoid antioxidant known to support energy levels.

CoQ10- a powerful endogenous (made naturally in the body) antioxidant that resides in the mitochondria and is a component of the energy producing process of ATP. It helps to eliminate harmful free radicals produced during the ATP process.

D-Ribose - is a sugar produced by the body that is used as a source of energy. Ribose is a factor in energy metabolism and production.

MAX ATP™

RIBOCEINE FUEL

Ingredients (continued)

B Vitamins (thiamine, riboflavin, niacin, pantothenic acid, pyridoxine, biotin, folic acid, cyanocobalamin)-support various enzymes that help convert food to energy. B vitamins serve as coenzymes that assist in specific metabolic processes to break down fats, amino acids, and carbohydrates for energy.

Magnesium- essential in all energy dependent reactions that include the use of ATP energy. It serves as a catalyst in the creation of ATP from ADP. It is also a catalyst when ATP is used for energy by helping in the hydrolysis of ATP (the act of releasing the energy stored in the high energy phosphate bond).

Copper - plays an important role supporting the synthesis of ATP in the mitochondria, or the part of the cell responsible for energy production.

Chromium - an essential trace element that is needed for the metabolism of energy.

Suggested Use

As a dietary supplement, mix one packet with 4-6 oz (120-180 mL) of water.
Store product in a cool, dry place.

Guarantee

This product has been manufactured in the USA in strict conformance with industry standards. Purity guaranteed.

Caution

Keep out of the reach of children. This product is for adult use only. It is not intended for use by children, pregnant women, or nursing mothers.

Banned Substance Control Group Certified
MaxATP has received the highly coveted Banned Substance Control Group certification proving that MaxATP contains no trace of harmful anabolic agents or stimulants. Under the direction of anti-doping expert Don Catlin, M.D., professionals with years of experience use cutting-edge technology and vigorous testing methodology to test every submitted product. BSCG certification affirms this product is safe for elite and professional athletes everywhere.

FAQs

What is ATP?

ATP, or adenosine triphosphate, is your body's most basic form of energy. ATP is produced in every cell and is the means by which our cells, organs, and by extension, our bodies are powered. ATP needs many different compounds or elements to be produced. MaxATP™ was designed with your body's energy needs in mind and provides a comprehensive list of elements needed for ATP production.

How is MaxATP different from energy drinks?

Most energy drinks focus on short-term energy boosts by delivering high dosages of sugar, caffeine and other stimulants. MaxATP aims to assist cell health and metabolism maintenance.

Can I take MaxATP with MaxGXL™, Cellgevity™ and MaxN-Fuze™?

MaxATP is designed to work synergistically with all of our Max products and can be taken together.

Supplement Facts

Serving Size: 1 Sachet
Servings Per Container: 30

	Amount Per Serving	% Daily Value
Calories	20	
Total Carbohydrate	5 g	2%*
Total Sugars	5 g	†
Includes 5g Added Sugars		10%
Thiamine (as thiamine hydrochloride)	3 mg	250%
Riboflavin	1.7 mg	131%
Niacin	20 mg	125%
Vitamin B6 (as pyridoxine hydrochloride)	5 mg	294%
Folate	400 mcg DFE (240 mcg folic acid)	100%
Vitamin B12 (as cyanocobalamin)	50 mcg	2083%
Biotin	150 mcg	500%
Pantothenic Acid (as calcium pantothenate)	10 mg	200%
Magnesium (as magnesium carbonate)	20 mg	5%
Copper (as copper gluconate)	200 mcg	22%
Chromium (as chromium nicotinylic glycinate chelate)	30 mcg	86%

Proprietary Blend: 1,029 mg †
L-Tartrate-Carnitine, D-Ribose, RiboCeine (as D-ribose-L-cysteine), Green Tea Extract (50% Caffeine)(*camellia sinensis*)(leaf), Quercetin Dihydrate (*Sophorae japonica* L.) (Bud), Rhodiola Rosea L.(root), Panax Ginseng (root), Coenzyme Q10.

*Percent Daily Values are based on a 2,000 calorie diet.
† Daily Value Not Established

Other Ingredients: Crystalline Fructose, Citric Acid, Silicon Dioxide, Guar Gum, Natural Orange Flavor, Stevia Extract (Rebaudioside A), Malic Acid, Natural Tangerine Flavor, Lime Juice Crystals, Natural Lemon Flavor.

CONTAINS: SOY
